Skills

Python Programming
Proficient with mobile app development tools
Coding & Programming skills
SQL Databases
Machine Learning
Data Mining
Scikit-Learn
Statistical Analysis
Intelligence Gathering
Probability Theory
Data Manipulation & Visualization
Matplotlib
Seaborn
NumPy
Pandas
Astute Leadership qualities
Familiarity with GIT & version control
Exploratory data analysis
Familiarity with GIT & version control
Exploratory data analysis
Hypothesis Testing
Sound persuasive & communicative skills
Artificial Intelligence
Data operations
Business Acumen
Database Management
Excellent Decision Making

Dynamic Data Scientist and Mobile App Developer with a proven track record at Custodian Life Assurance and other platforms, leveraging Python programming and flutter mobile app architecture coupled with an astute leadership quality to drive data-driven decision-making. Highly skilled in machine learning and effective communication, I've optimized processes and enhanced productivity, demonstrating a commitment to continuous learning and innovation with 17+ successful projects done.

Work History

Data Analyst/Scientist

Freelancing, Remote

2024-02- Current

• Highly proficient in Python programming and it's libraries for data analysis e.g. NumPy, pandas etc.
• Sound at gathering data from various sources using tools like SQL, Python, and web scraping techniques.
• Able to apply statistical methods to methods to interpret data and draw meaningful conclusions.
• Saliently sound in database languages such as PostgreSQL, MS Server etc.
• Familiarity with basic machine learning concepts and algorithms.
• Constantly learning daily and updated on the latest trends and advancements in the field data science.
• Able to reinforce key concepts in data visualization using tools such as matplotlib, seaborn, ploty etc.
• In-depth knowledge of mathematics, statistics and predictive modelling.
• Strong communication and interpersonal skills, with the ability to explain complex technical concepts in a clear and accessible manner.
• Streamlined data collection methods to improve quality control measures and minimize errors in analysis results.
• Created and implemented new forecasting models to increase company productivity.
• Utilized advanced querying, visualization and analytics tools to analyze and process complex data sets.
• Translated business requirements into data-driven solutions, providing value-added insights that directly contributed to the organization's strategic goals.
• Optimized machine learning pipelines and computational resources deployment strategies resulting in reduced processing times.

Mobile Application Developer

Freelancing, Remote

2023-10- Current

• Integrated third-party APIs into mobile applications, enhancing their functionality and usability for end users.
• Ensured application quality by conducting thorough testing prior to release, identifying and fixing bugs.
• Increased app store ratings by consistently addressing user feedback and implementing improvements in subsequent updates.
• Developed user-friendly mobile applications by incorporating intuitive design and seamless navigation features.

Cloud Computing
Critical Thinking
Continuous Learning
Creativity
Innovation
Highly Teachable
Effective Time Management
Ability to leverage
Ability to prepare data for effective analysis
Experience with OOP design principle
Experience with third party libraries & APIs
Data Ethics skill
Ability to write effective & maintainable code
Attention to detail
Artificial intelligence skills
Big data skills
Environmental awareness
Math & Statistics
Intellectual curiosity
Strong debugging skills
Business Strategy
Software engineering knowledge
Linear Algebra
Calculus
Self-motivation
Classification & Clustering
Out of box thinking
Discrete Math
Data Storytelling
Ability to leverage self-service analytics
Data wrangling & database management
Professional Demeanor
Organizational Skills
Data Governance
Task Prioritization
Data Aggregation Processes
Adaptability and Flexibility
Multitasking Abilities
Data programming
Team building
Team Collaboration
Mobile App Deployment
Mobile App Management

2023-10- Current

• Writing clean, maintainable, and well-documented code as well as conducting thorough testing to identify and fix bugs and ensure the readability of the mobile application.
• Working collaboratively and closely with designers, product managers, and back-end developers to deliver seamless user interface & experience.
• Enhanced app performance for a smoother user experience by optimizing code and troubleshooting issues.

Front End Developer
Freelancing, Remote

2022-10 – Current

• Utilized HTML, CSS, and JavaScript to create visually appealing and responsive web pages that met client requirements.
• Coded using HTML, CSS and JavaScript to develop features for both mobile and desktop platforms.
• Worked closely with UX/UI designers to translate their designs into functional web applications.
• Utilized version control systems such as Git to track changes throughout the development process.

Sales Representative, Custodian Life Assurance
Ibadan, Oyo State, Nigeria

2020 –01 – 2021-04

• Expanded customer base through cold calling, networking, and relationship building.
• Enhanced client satisfaction by addressing concerns promptly and providing exceptional service.
• Developed and implemented sales strategies to increase profits.
• Trained and mentored new sales representatives.
• Used customer insights to develop innovative sales strategies to increase sales.
• Developed and maintained comprehensive understanding of products, services and competitors to enhance sales presentations.

Science Tutor, A Level Education Centres
Ibadan, Oyo State, Nigeria

2018 – 09 –2020-01

• Enhanced student understanding of scientific concepts by employing hands-on activities and real-world examples.
• Developed strong rapport with students through consistent communication and active listening, fostering a supportive learning environment.
• Facilitated small group sessions to address individual student needs, increasing overall comprehension levels within the classroom.
• Provided constructive feedback on homework assignments, equipping students with tools for continuous self-improvement.
• Stayed current on developments in science education research to inform instructional approaches and continuously refine teaching methods.
• Communicated regularly with parents regarding student progress, facilitating open dialogue and shared responsibility for academic success.

Education

2024-07	**Professional Data Scientist** DataCamp
2024-06	**Associate Data Scientist** **DataCamp**
2023-04	**Training & Certification: Certified HTML Developer** *W3Schools*
2022-08	**Training & Certification: Mobile Application Developer** *TechSphere – Oyo State, Nigeria*
2015-12	**Bachelor of Science: Biochemistry** *Olabisi Onabanjo University – Ogun State, Nigeria*

Certification

- Data Scientist in Python
  DataCamp
- Amazon Web Services (AWS) Training
  Incubator Nigeria
- Statistics Fundamentals with Python
  DataCamp
- Data Analyst with Python
  DataCamp
- Python Fundamentals
  DataCamp
- SQL Fundamentals
  DataCamp

Licences

Fundamentals to Become a Machine Learning Engineer

Getting Started with Artificial Intelligence (AI) and Machine Learning

Certified Data Analyst Associate

Certified SQL Associate

Associate Data Scientist with Python

Professional Data Scientist with Python
